Why Napoleon®?

Environmentally friendly... Go Green with Napoleon® – no emissions, no pollution, 100% energy efficient. Napoleon® electric fireplaces are an environmentally friendly way to enjoy the ambiance of a fire by simply plugging it in to a standard 120V electric outlet and enjoying.

Making your life easier... Napoleon® electric fireplaces are designed to provide you absolute comfort and control at the touch of your fingertips. It's that easy. When you install a Napoleon® electric fireplace, you can rest assured that you will enjoy a lifetime of instant ambiance.

An investment you can count on... Your new Napoleon® electric fireplace adds value to your home while at the same time giving you uncompromising comfort and a reliable heating source. Aside from kitchen and bathroom renovations, fireplaces add the highest return on your home investment.

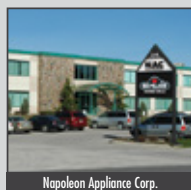

Create your personal design statement... Surround yourself with a home environment that makes you feel good, relaxed and proud to reflect your decorating style. Designer options are available to create the exact statement you have been looking for.

Authorized dealer support network... With over 3,000 reputable authorized dealers across North America, Napoleon® works hard to provide professional, consistent training and technical education to support our dedicated team of professionals.

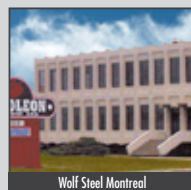

Outstanding reliable warranty... Each and every Napoleon® electric fireplace is designed and manufactured to strict quality testing standards and backed by our one year warranty, guaranteed to give you the solid performance you deserve. Napoleon® is registered under the world recognized ISO 9001-2008 quality systems.

We are proud to be recognized as one of Canada's Best Managed Companies and are dedicated to providing quality, home comfort products for over 38 years and counting.

Azure™ 42

Mounted or Partially Recessed Electric Fireplace

A 42 inch linear electric fireplace that is perfect for those wanting an aesthetically pleasing focal point in their room without the need for venting. The high power LED lights make it one of the brightest electric fireplaces available, making it perfect for both night and day use. The Azure™ 42 features three different flame and color settings which create a variety of looks to match or enhance any room in your home. Enjoy the convenience of a “Hang, Plug and Go” fireplace or choose a partially recessed installation for a sleeker low-profile look.

Tranquille™ 30 & Tranquille™ 30 with Glass

Recessed Clean Face Fireplace

A clean face, modern electric fireplace that looks great in both a mantel or drywall installation! The superior flame image and natural looking log set (EF30) or modern glass ember bed (EF30G) truly reflect the appearance of a real burning fire. Tinted reflective panels give the illusion of a deeper, larger firebox. The three stage heater and WHISPER QUIET™ fan can be thermostatically controlled, providing a warm and comfortable environment. Perfect for any room in your home!

Slimline 32 & Slimline Convex 32

Clean Face Linear & Convex Fireplaces

Offering a clean face linear or convex design and the convenience of simply hanging, plugging in and enjoying. The Slimline 32 and Slimline Convex 32 are perfect for those wanting a clean face fireplace that takes up minimal space on the wall. The Slimline 32 and Slimline Convex 32 can be recessed into a 2" x 4" wall for reduced protrusion into the room or surface mounted on the wall with a built-in bracket. A beautiful way to add ambiance and comfort to any room in the home.

Slimline 60 & Slimline 72

A New Source of Warmth

The Slimline 60 and Slimline 72 are electric fireplaces you can simply hang, plug in and enjoy. The generous glass front with wide black glass frame creates a stunning contrast around the realistic flame pattern generated using LED technology. A contemporary glass ember bed complements the minimalist design. The Slimline 60 and Slimline 72 can be recessed into a 2" x 4" wall for reduced protrusion into the room or wall mounted with the built-in bracket and features an electronic touch screen control panel providing convenient access on the front of the units.

Slimline 100

100" Wide Design

Napoleon's Slimline 100 electric fireplace is 100" wide and offers an outstanding linear design element to any room in your home or office. The Slimline 100 features a realistic flame pattern accented by a contemporary glass ember bed and operates from a remote control or can be hard wired to a light switch. The Slimline 100 does not produce heat and can be recessed into a 2" x 4" wall with only ½" protrusion or surface mounted on the wall with a built-in bracket, perfect for commercial applications.

Outstanding Features

of Napoleon's Advanced Technology

Reliable LED Technology

Napoleon's electric slimline series offer reliable LED technology for added convenience. LED lights are extremely efficient and long-lasting saving you the hassle of having to change out light bulbs.

Hidden Touch Screen Controls

Touch screen controls allow you to adjust the fan, heat level, flame height and brightness. At the touch of your finger you can set the thermostat to a desired temperature, plus use the timer to control hours of operation (excluding EFL100).

A Space-Saving Convenience

Offering a wide variety of lengths ranging from 32" to 100", Napoleon® has an electric fireplace for any room in your home or office.

Heat from top

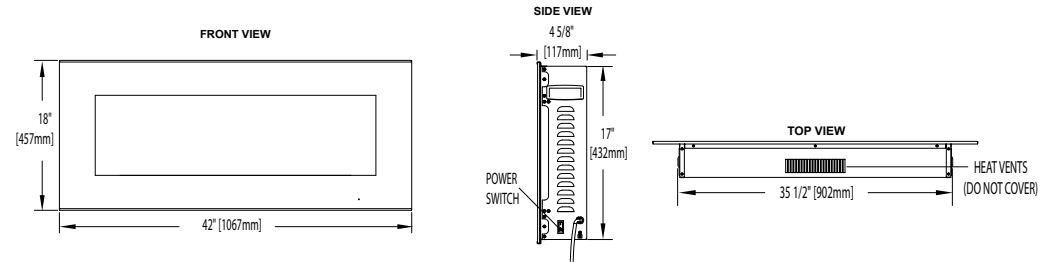

Napoleon's Electric Slimline fireplaces have been designed to heat from the top, allowing you the option of a recessed or wall mounted installation, without intruding on the look of the linear glass front (excluding EFL100).

Reduced Protrusion

All Napoleon® electric fireplaces can be recessed into a 2" x 4" wall for reduced protrusion into the room. All units can also be surface mounted.
