FIND YOUR HAPPY (fire)PLACE.

Throughout the ages, people have gathered around fires to share in life's greatest joys.

There's just something about the glow of flickering flames that makes special moments feel even warmer.

A Napoleon fireplace is uniquely designed to brighten the vibe of any room in your house. Napoleon has an incredible range of designer options to fit any vision.

A fire not only raises the warmth and ambiance of a room, it can raise the value of your home. A fireplace offers some of the highest returns of any remodeling project. And that should make you feel good all over.

And so you can keep enjoying that positive glow for years and years and years to come, every Napoleon fireplace is backed by the President's Limited Lifetime Warranty.

We are proud to be recognized as one of Canada's Best Managed Companies and are dedicated to providing quality, home comfort products for over 40 years and counting.

Ascent™ 30

Direct Vent Fireplace

Napoleon's Ascent™ Series has endless opportunities and is perfect for home builders and homeowners alike. The Ascent™ 30 is the smallest fireplace in the series and is a perfect option when space is at a premium. With up to 15,000 BTU's and Napoleon's exclusive PHAZER® glowing log set, it provides plenty of cozy heat.

Enhance Your Emberbed

Napoleon Fireplaces is officially announcing it's lineup of new, completely customizable, media enhancement kits. The three kits are; the Beach Fire kit that consists of 4 driftwood logs, a Shore Fire kit that consists of rock, sand, vermiculite, glass and rock tray and a Mineral Rock kit that consists of rocks in a variety of shapes, sizes and colors. These kits can be used as standalone media or you can pick and choose elements from all 3 kits to be mix & matched to create a custom look. Completely customize your fireplace to your exact tastes!

Beach Fire kit (DLE)

Comes with four driftwood logs

The Beach Fire kit includes four pieces of driftwood styled logs and it's product code is DLE. This can be used with the Ascent™ 30, 36, X 36, Linear 36 and 42.

Shore Fire kit (MKE)

Comes with a variety of Rock, Sand, Vermiculite, Glass and rock tray

The Shore Fire kit includes a well balanced mixture of rocks, sand, vermiculite, glass and rock tray and is available in 3 sizes. The MKE30 for use with the B30, the MKE36 for use with the B36, GX36 and Linear 36 plus the MKE42 for use with the B42.

Mineral Rock kit (REK)

Comes with rocks in a variety of shapes, sizes and colors

The Mineral Rock kit is a mixture of different sized rocks in black, red, blue and grey and it's product code is REK. This can be used with the Ascent™ 30, 36, X 36, Linear 36 and 42.

Outstanding Features

of Napoleon's Advanced Technology

Advanced Burner Technology

Napoleon's sophisticated burner system offers superior flame technology. Strategically placed burner ports create the most realistic YELLOW DANCING FLAMES[®] in the industry.

Finely Tuned Precision Valves

Surrounded with a protective cast aluminum jacket, the precision valves allow for ultimate reliability and 100% SAFE GUARD[™] gas control system.

Minimum 30% savings on heating costs with Zone Heating

Zone Heating means you are heating the rooms that you use the most with an alternate heat source, like a Napoleon heater rated gas fireplace. Zone Heating is the obvious solution for families concerned about rising fuel costs.

Outstanding Craftsmanship

Fine details are designed in every aspect of Napoleon fireplaces... individually handcrafted with pride of excellence to last a lifetime.

Safety Screens

Napoleon, leaders in design & technology have developed safety screens with aesthetically pleasing designs for every gas appliance to ensure ultimate safety and peace of mind for your family.

Outstanding Features

of Napoleon's Direct Vent Technology

Direct Vent System

1. Zero clearance to combustible framing*
2. Forced convection heated room air
3. Radiant heat
4. High Heat Ceramic or Tempered Glass increases the radiant heat that is dispersed throughout the room. Save up to 30% on energy costs with radiant heat and Zone Heating
5. Cool room air is naturally drawn through the lower opening, circulates around the firebox, and expels into the living space as warm air
6. Optional air circulating variable speed blower with high temperature bearings increases efficient heating
7. Advanced ceramic burner system (selected models)
8. MIRRO-FLAME™ Porcelain Reflective Radiant Panels further increase radiant heat (optional on most models)
9. Advanced burner technology produces the most realistic flames in the industry
10. Sealed combustion chamber
11. Optional rear exhaust (selected models)

12. Efficient heat exchange system
13. Combustion air inlet
14. Flue gas outlet

With over 40 years of research and development, Napoleon® has perfected direct vent technology to offer you a fireplace, stove or insert that easily fits into your lifestyle.

With Napoleon's direct vent technology, you can design and install your fireplace in unique locations where it wasn't possible before with traditional masonry fireplaces. Even your basement can be transformed into a warm, inviting oasis for your family and friends to enjoy.

Whether you are renovating, building or replacing an inefficient fireplace product, Napoleon® helps guide you in the right direction to find the product that's right for you and your home. Napoleon® Fireplaces are a smart investment that will bring many years of affordable luxury to you and your family.

*See installation manual for details

Direct Vent Power Venting System

1. Suitable for exhaust products with various vent diameters
2. Installation friendly maintenance free durable construction
3. Blower mounted outside at terminal with WHISPER QUIET™ operation inside
4. Terminates above or below the fireplace to allow more freedom and versatility for direct vent installations
5. No hoses to terminal
6. Ability to "snake" either up, down or around objects (ie; behind stairways)

Napoleon's power venting system allows more freedom and versatility for direct vent installations. The option of having the termination above or below the fireplace, along with the ability to "snake" either up or down, allows installation when the desired fireplace location is a great distance away from an outside wall. The blower that pulls the burned gases from the fireplace is mounted outside at the terminal which provides WHISPER QUIET™ operation inside the home.
