AIR CONDITIONERS

HEAT PUMPS AND CENTRAL AIR CONDITIONERS

napoleonheatingandcooling.com

WHY A CENTRAL HEAT PUMP OR AIR CONDITIONER?

As the season temperatures change outdoors, they should not be changing in your home. Whether you're coming inside out of the snow, rain, heat or humidity, you'll be greeted by a constant and comfortable temperature that is ideal for you. In addition to these benefits, you can also rest with the knowledge that the high SEER (Seasonal Energy Efficiency Ratio) rating on your heat pump or air conditioner will consistently generate savings on your energy costs. Create the perfect atmosphere while knowing that you're saving money with high-performance and energy-efficiency that is guaranteed by your Napoleon® Central Heat Pump or Air Conditioner. Ask your authorized Napoleon® heating and cooling dealer to calculate which unit will best serve your home's needs.

FEATURES

- Up to 16 SEER (Seasonal Energy Efficiency Ratio)
- 1.5 to 5 tons cooling and heating capacity
- R-410A Chlorine-free Refrigerant
- Energy star rating (SSZ14 & GSX16)
- High efficiency scroll compressor
- Service valve gauge ports positioned for multiple directional access
- Time delay relay standard
- Factory installed liquid-line filter dryer
- Painted galvanized full metal jacket with hail guard/easy clean vertical vents
- Grey color complements any environment
- Quiet performance with a three-bladed and louvered sound-control top
- Top and side maintenance access with single panel access to controls with space for field installed accessories

HOME COMFORT YOU CAN COUNT ON – SAVINGS THAT MAKE A DIFFERENCE

When you're scrambling to meet the countless demands of your day, coming home and struggling to achieve a comfortable balance in your home's temperature is the last thing you want to add to your checklist. Napoleon's central air conditioning and heat pump systems cool and dehumidify indoor air to bring balance and efficiency to your home. With models up to 16 SEER, Energy Star rated and superior engineering and technology, we offer the next generation of heating & cooling to keep your family comfortable and the environment a little greener. Backed with a 10 year limited compressor and parts warranty†, we guarantee your comfort and satisfaction to make your home a retreat you won't want to leave.

Have a good night's rest with Napoleon®

EFFICIENT AND QUIET AIR FOR EVERY SEASON

Feel refreshed and relaxed in your home while being protected from the seasons' harshest elements. The condensing unit both cools and dehumidifies the air quietly, to ensure that you enjoy all of the features that the unit has to offer for years to come.

THE ADVANTAGES OF A SIDE DISCHARGE CONDENSER

Also known as a horizontal discharge condensing unit

When outdoor space is limited, a side discharge is ideal. The narrower design allows for more versatile installations in smaller spaces. The unit also creates less wind turbulence and more quiet operation compared to top vented models. With neighbors in close range this is a valuable feature you will both appreciate. With less surface area exposed, maintenance is also made easier with less debris being able to enter and obstruct the fan blades. Simplicity and quality construction give you years of quality performance and comfort.

Achieve a comfortable and consistent temperature all at your finger tips

FEATURES

- Up to 13 SEER* (Seasonal Energy Efficiency Ratio)
- *Operates with Napoleon® 13 SEER cased and uncased A coils ranging from 1.5/2 to 3 tons
- R-410A Chlorine-free Refrigerant
- High efficiency rotary (12,000 - 30,000 BTU models) and scroll compressors (36,000 BTU model)
- Backed by a 5 year compressor limited warranty and a 5 year parts limited warranty
